

Lōvu Partners with The Baby Academy to Provide Free Perinatal Education for Families

At **Lōvu Health**, we are committed to enhancing the well-being of families by connecting them with the best health-related resources and services. We're excited to announce our partnership with **The Baby Academy**, a trusted provider of perinatal education, to offer **free, evidence-based classes** that empower parents during one of life's most important journeys.

Empowering Families with Education

Through this partnership, Lōvu users will gain access to The Baby Academy's live, online classes, led by **qualified healthcare professionals**. These sessions provide essential education on topics such as:

- **Birth & Breastfeeding**
- **Recognizing when baby is hungry**
- **transitioning from milk to solids (like what to do if baby is choking?!)**
- **and essential tips for post-birth recovery**

By integrating The Baby Academy's expert-led resources into our platform, we are helping families feel confident, informed, and supported throughout their perinatal journey.

A Shared Commitment to Supporting Families

The Baby Academy's mission is to harness and curate the collective expertise of the world's leading healthcare professionals, offering it to parents in the most accessible and engaging way. With a vision to provide easy access to expectant and new parents everywhere, this partnership aligns perfectly with Lōvu's goal of delivering seamless, high-quality support to our users.

Seamless Access Through Lōvu

Lōvu users can now access The Baby Academy's classes directly through our app, making expert education more accessible than ever. This collaboration strengthens our commitment to providing meaningful value and resources to support families across the US.

We are proud to work alongside The Baby Academy in empowering parents with the knowledge and resources they need to navigate parenthood with confidence.

About The Baby Academy

The Baby Academy offers live, online perinatal education designed to improve patient outcomes and reduce the burden on healthcare providers. Their classes are evidence-based and taught by healthcare professionals, ensuring the highest quality support for parents.

Together, Lōvu Health and The Baby Academy are making a difference for families across the US by delivering accessible, expert-led education for every step of the perinatal journey.
